

The screenshot displays the 'Request' and 'Responses' tabs of a web browser's developer tools. The 'Request' tab shows a POST request to the URL `/servlet/~iufo/nc.itf.iufo.mobilereport.data.ReportDetailDataQuery` with a `Content-Type: application/json` header. The request body is a JSON object: `{ "reportid": ";WAITFOR DELAY '0:0:5'--" }`. The 'Responses' tab shows a 500 Internal Server Error response from Apache Tomcat. The response body is an HTML page with a title 'Apache Tomcat/7.0.79' and a message: 'The server encountered an internal error while fulfilling this request. Exception: java.lang.ArrayIndexOutOfBoundsException: 0'. A red arrow points from the 'Content-Type: application/json' header in the request to the 'Content-Type: text/html' header in the response.
